

FROM A CAMPSITE IN THE KIMBERLEY TO A BEACH IN BINALONG BAY, TJM HAS THE COUNTRY COVERED FOR GETTING 4WD EQUIPPED.

Since 1973, TJM has designed, tested and developed the most comprehensive and innovative range of 4WD equipment available in Australia today.

And our work goes on, in the toughest testing ground we know... our own backyard.

Whether you're camping or fishing, drilling or fencing, or just picking up the kids from school, get yourself TJM equipped for anything.

TJM Bull Bars, Nudge Bars, Side Bars and Steps, Alloy and Steel, engineered and refined to stringent Australian Safety Standards.

TJM Airtec Snorkels, TJM XGS Suspension, TJM Recovery Gear, TJM Winches, TJM Pro Lockers, TJM Roof Top Tents and Awnings, TJM and Aeroklas Canopies, Dual Battery Systems and a whole lot more.

The list keeps growing like a good bush yarn, because at TJM we're always striving

for new ideas that'll help and protect our customers while they enjoy their 4WD experience.

To see the complete TJM range of products visit www.tjm.com.au where you'll get a real good look at how TJM will get you equipped.

DESIGN FROM TJM

PACE PERFORMANCE 4X4 SUSPENSION THE BRAND-NEW 2 WAY ADJUSTABLE SHOCK ABSORBER FROM TJM HAS ARRIVED.

Pace Performance 4x4 Suspension has been designed to provide the ultimate off-road experience for both weekend adventurers and high performance off-road users.

The unique 8 stage compression and rebound adjustability provides a fully customised ride to suit any load application.

The patented inbuilt hydraulic bump-stop provides the perfect solution for vehicles that experience suspension bottoming at high speeds or when heavily loaded. As the suspension reaches maximum compression, the internal bump stop progressively increases damping resistance for maximum impact control. As a result, the vehicle and occupants are protected from high stress loads.

The innovative monotube design consists of a single wall construction which ensures direct heat dissipation.

FEATURES & BENEFITS

2 WAY ADJUSTABLE

- FULL CONTROL OVER REBOUND AND COMPRESSION DAMPING FORCE
- EASILY ADJUST THE RIDE PERFORMANCE TO PERSONAL PREFERENCE AND VEHICLE SET UP

REMOTE RESERVOIR AND 52MM PISTON DIAMETER

- MONOTUBE DESIGN
- INCREASED OIL COOLING CAPACITY

PATENTED INTERNAL HYDRAULIC BUMP-STOP

- CONTROLLED OFF-ROAD HANDLING
- DAMPENS THE EFFECTS OF SUDDEN SUSPENSION FORCES
- PREVENTS 'BOTTOMING OUT' THROUGH CONTROLLED END ZONE DAMPING

ADJUSTABLE COIL OVER SPRING SEAT

- EASILY ADJUST THE VEHICLE RIDE HEIGHT (COIL OVER ONLY)

VEHICLE SPECIFIC

- APPLICATION SPECIFIC FOR MAXIMUM VEHICLE PERFORMANCE
- DIRECT SHOCK ABSORBER REPLACEMENT
- RESERVOIR BRACKET KITS AVAILABLE FOR EACH APPLICATION (SOLD SEPARATELY)

WEIGHT CAPACITY

- COMPATIBLE WITH ALL LOADING CAPACITIES

TESTED ON THE PATRIOT
MEGATOURER
